Synertec OPC

ABOUT US

Synertec OPC is a construction-focused company delivering integrated infrastructure solutions supported by modern technology systems.

Our core business centers on construction, infrastructure development, and construction support services, providing practical and durable solutions for commercial, industrial, and institutional projects. We specialize in the supply of construction materials, glass and aluminum works, site preparation, and infrastructure support—ensuring efficient and high-quality project execution.

In addition to construction, Synertec integrates modern technologies such as security systems, networking, and operational tools into physical infrastructure, enabling clients to achieve greater functionality, safety, and long-term value.

By combining construction expertise with technology capabilities, Synertec OPC delivers end-to-end solutions designed for real-world performance and sustainability.

Synertec OPC

ABOUT US

Synertec OPC is a subsidiary of Larkin Enterprises Limited, a company with over 10 years of proven experience in the construction industry based in Port Moresby, Papua New Guinea.

Built on this strong foundation, Synertec brings extensive hands-on expertise, industry knowledge, and operational discipline developed through years of delivering construction projects in Papua New Guinea.
As part of its strategic growth, Synertec OPC is now venturing into the construction industry in the Philippines, bringing with it tested capabilities, skilled execution, and a deep understanding of project delivery in challenging environments.

Backed by extensive experience in Papua New Guinea, the company brings a proven track record of reliability, adaptability, and results-driven construction.

With the strength of Larkin Enterprises Limited behind it, Synertec OPC is positioned to deliver construction and infrastructure solutions that meet international standards while remaining practical, cost-efficient, and client-focused.
